

Nomination and Recommendation Letter for the Awards and Recognition Program

Our Cadets, and the volunteers who support them, make a substantial contribution to the future of our nation through their dedication to the aims and vision of The Navy League of Canada. It is important for the Navy League to recognize these efforts through a comprehensive Awards and Recognition Program.

Given that effective recognition programs can be a critical factor in the retention of cadets and volunteers alike, and can also create public awareness opportunities, it is in the best interest of each level of the organization to participate in a National Awards program. Each unit is also encouraged to augment the National Awards program with local/divisional awards where appropriate.
